Have noticed that many of the homes have started Christmas decorating. Remember there are very useful prizes-one for the best decorated grounds and one for the best decorated window or door display for the residence category. In the business group, there will be one prize for the best decorated business establishment, either window or building.

\* \* \* A-1 Sea Food and Poultry Market on N. Andrews Ave., have some fine Davis Poultry Form turkeys on hand and from what we hear, they are real fine eating.

For last minute shoppers, can't think of anything finer for the house wife to ease her burdens than electrical appliances. Economy Home Apphances at 643 N. Andrews have a very fine selection on hand.

Speaking of gifts it reminds us that Garden and Pet Supply Store at North Andrew sAvenue, who have one of the most outstanding stores of this type really have plenty of gift selections for the whole family. They have gold fish, birds, plants, garden equipment and it would pay you to just drop in and browse around. And bye the way-don't forget a gift for that (avorite pet you have at home.

. . . Notice that Betry Hickson (Ole Bill's) sure knows how to wrap Christmas packages in a most decorative manner. Any package goods purchased for gifts will be wrapped free al Ole Bill's.

Paul Mack, registered real estate broker, has attractive Christmas light decorations at his office on Wilton Drive, incidentally where The Bulletin maintains its office. Paul has also opened up a real estate office at Delray Beach.

We wish to thank Nix Sign Company, who are located on the Old Dixie for their generosity in building and erecting a Merry Christmas Neon sign at the Gate. Mr. Nix is not a resident of the Village, but felt that as his child attends Wilton Manors school, he wanted to do something for Wilton Menors. Another sign "Happy New Year"is being erected by Mr. Nix at the most available spot at the south end of Wilton Drive near Williams Pharmacy. This sign is being paid for by contributions from the mer-

For the last minute shopping, Wilson Electrical Appliance Service on the Old Dixie, north of the gate, has ideal gifts for the house wife. So, husbands who might have forgottennothing would be more appreciative to lighten the household task than a small electrical appliance.

#### MERRY CHRISTMAS

As this is the last publication of The Bulletin before Christmas, we wish to extend to both our readers and advertisers a very Merry Christmes. Tom E. Hinds,

Editor and Publisher.

The property owners of the Village are respectfully requested to fill out the following coupon, in order that the Village Council can determine the number of residents and business who wish to have city water supplied. In this manner the Council can give to the bonding company an accurate number of prospective users of city water so that monies for the proposed distribution system can be raised through the floating of a bond issue.

WILTON MANORS WATER SURVEY

DO YOU WANT CITY WATER

YES ( ) NO ( )

MINIMUM CHARGE OF \$2.50 MONTHLY FOR 5,000 GALS. ESTIMATED COST OF METER PLUS INSTALLATION \$40.00

The public is requested to cut out and mail the above cupon to the office of The Wilton Manors Bulletin, 2007 Wilton Drive Wilton Manors. Fort Lauderdale, Fla., or to leave the same at the office of this publication.

This is a public service rendered by The Bulletin in order to expedite the water question and at the request of the Village Council

According to the report of the engineers, Black and Associates, Inc., from Gainesville, who were engaged by the Vi)lage Council to make a survey of the water situation for the Village, they make their recommendations as follows and we quote

"The installation of a public water supply system for hie Village of Wilton Manors is necessary for the growth and health of the community.

"The estimated population is 2800 in 1975.

"The proposed distribution system will serve the Village for the existing housing. When the housing area considered is expanded, the system will suffice as a sound net-work for future expansion.

"It is recommended that the minimum rate be \$2.50 for a 5,000 gallon minimum monthly and that additional water used over the 5,000 gallon minimum be charged at the rate of 50 cents per 1,000 gallons.

"The proposed financial method of installing the system is well within the anticipated revenue and will yield a satisfactory source of revenue to the Village."

The estimated costs according to the latest report from Black and Associates is, that based on the possibility of receiving water from Oakland Park, with the installation of the system it would cost approximately \$67,910.

Village officials have met with the Oakland Park governing body on several occasions and it is expected that at this weeks' meeting of the latter officials that some type of agreement can be reached.

One thing that the people of the community can be assured of is the fact that the governing body has given deep and conscientious study to the problem over the last few months.

At the meeting of the Council this Friday night a report will be made as to the action taken by Oakland Park as to whether or not they wish to supply water to the Village.

The Village Council meets Friday
